HYGIENE AND FOOD SAFETY

Tanpopo takes hygiene very seriously and we made it our business to gain SALSA accreditation for our kitchens. This involves a full audit of our premises and all documentation to ensure the highest standards of food safety and hygiene.

Because our audits are carried out by independent third parties, our customers can rest assured our premises are spotless and maintained through proper cleaning schedules and procedures. This ensures the sushi making process is controlled at every stage, from the arrival of fresh fish, through to the delivery in our refrigerated vehicles. We also have full records of where all our ingredients have come from, and where all the sushi has been delivered to each day. This gives you peace of mind and us satisfaction of a job well done.
